## Fraction équivalente

$$\frac{27}{30} = \frac{9}{10}$$

### Fraction équivalente

Pour trouver la fraction équivalente, cherche le rapport entre les numérateurs ou dénominateurs.

$$\frac{27}{30} = \frac{9}{10}$$

*(Note: In the original image, 27 and 30 are blue, 9 and 10 are purple, and the arrows and ':3' are red.)*

$$\frac{27}{30} = \frac{9}{10}$$
